

AgForests, a joint initiative of AgForce and Timber Queensland, and part of the AgForward Program bring you an...

AgForests Field Day Workshop at Bill and Frances Tincknell's property 'Coongoola' at Miriam Vale.

Thursday 23rd April 2009

8.30am – 4.00pm

Selling & Thinning Native Timber on Freehold Land

**Making the most from your coloured areas by using
sustainable forest practices!**

* Sam Ellis (AgForests) will discuss and demonstrate what landholders can do regarding timber harvesting and forest practice thinning in both 'coloured' (remnant) and white (non-remnant) country, and comply with the Vegetation Management Act and Native Forest Practice Code.

- * Also covered:
- How to combine grazing and native forest timber production
 - Knowing more about timber markets and products
 - Understanding 'productive' and 'unproductive' trees
 - Protection of biodiversity, habitat, and ecological values.
 - Nationally accredited training day that can go towards the attainment of a Certificate IV in conservation and land Management.

Tordon contractor Adrian Moseling will give a demonstration in the afternoon. Chemical application rates as well as correct spacing and treatment of trees according to size and species will be included in the demonstration.

Lunch, Morning and Afternoon Tea all provided

BYO Hat/Raincoat and Chair

RSVP Required for Catering – 0427 694 771
