

AgForce Grazing and Grains Reef Rescue Partnership presents:

HOW TO USE COMPUTER MAPPING ON YOUR PROPERTY

ROSEDALE – Tuesday 26th May
BOROREN – Wednesday 27th May
MT PERRY – Thursday 28th May

How will this workshop help me?

- Understanding of how computer mapping can help you with property planning
- Provide you with the knowledge and tools to assist with purchasing the right computer mapping software for your property, such as:
 - Ability to import data types; Inclusion of farm management tools; Inexpensive (i.e. below \$700); Ongoing technical support; Easy to use and learn; Links with different types of GPS units; Able to generate new data

What the workshop will cover?

Participants will become familiar with:

- Fundamental computer mapping concepts and principals
- Loading and displaying digital data
- Generating new maps for properties
- Linking GPS for data upload and download
- Creating and printing hard copy maps
- Using mapping software you will be able to add bio and physical features:

Participants are provided with:

- Computer Mapping Essentials Workbook
- Property digital data containing (based on your Lot on Plan):
 - Property boundaries
 - Landsat and/or SPOT5 satellite imagery
 - Regional Ecosystem boundaries
 - Preclear vegetation boundaries
 - Watercourses
 - Wetlands (if applicable)
- Mapping software packages (demonstration licences)

This workshop commences at 9:00am and finishes around 4:00pm. The workshop is restricted to 10 participants and is free of charge to landholders.

For more information or to register - contact Bree Robertson at AgForce on (07) 3238 6039, email bree.robertson@agforward.org.au

Registration close 7 days prior to workshop date.

This workshop is funded through the Australian Government 'Caring for our Country' Reef Rescue partnership. For more information about Reef Rescue Initiatives, contact:
