

**better catchments**

AN INITIATIVE OF THE BURNETT MARY REGIONAL GROUP

**Burnett Catchment Care Association (BCCA)  
invite all South Burnett grain growers to attend:**

## **Grains BMP**

**Best management practices for the  
sustainable production of grain in Queensland**

**The workshop will be presented by  
Queensland Primary Industries & Fisheries (QPI&F)**

### **What is Grains BMP?**

A range of skills and best practices for grains production in Queensland have been described and documented to assist grain growers in their decision making ability.

The workshop covers the following modules:

- Making the most of rainfall
- Crop nutrition and fertility management
- Integrated Pest Management
- Pesticide application
- Farm design and layout

The program has been designed to secure your long-term viability and sustainability.

### **Why should you do Grains BMP?**

- To identify which of your farming practices already meets best management practice.
- To get information and resources about best practices through the modules and other useful sites.
- To get ideas on other practices that may save you time and money.
- To demonstrate to the banks that you are actively engaged in profitable & responsible practices.
- To identify possible projects and natural resource management incentives.
- To demonstrate to the community that you are actively engaged in environmentally responsible practices.

### **The next workshop in your area is:**

**When:** To be confirmed – early December 09  
**Where:** QPI&F J. Bjelke-Petersen Research Station, Kingaroy  
**Time:** 9:30am – 3:30pm, smoko and lunch provided  
**Cost:** Free to South Burnett grain growers & agronomists  
*For more information call BCCA on 0428 753 338 or  
Jason Huggins on (07) 4693 2967*

**BCCA have some funding available to participants who would like  
to implement activities identified within the Grains BMP!**
