

# Stocktake

## Balancing Supply and Demand

A monitoring package that 'takes stock' of your grazing resources and points to improved management decisions.

### Key Features

- Paddock based assessment with recognition of the different land types within the paddock.
- Grazing land monitoring in terms of ecosystem health and long-term paddock productivity.
- Managing and interpreting data in a way that is useful for business planning.
- Quantifying the potential for improvement in productivity
- Forage budgeting. E.g. How long is the feed going to last with the present number of cattle / sheep in the paddock?

This one-day practical training workshop steps participants through the technical concepts and demonstrates field assessment techniques and database use.

### Future Stocktake workshops

- **Kingaroy DPI&F** Tuesday, 24 November, 2009

### Workshop Cost

- The Stocktake workshop is a one-day course which costs \$330 per business (including GST). This cost covers the course, all resource materials, morning and afternoon teas and lunch.
- Stocktake is FarmReady approved # FTRC0272 - see [www.farmready.gov.au](http://www.farmready.gov.au) for information. Please note the FarmReady applications must be submitted **5 days prior** to the workshop – (ie. 17<sup>th</sup> Nov 09).
