AN INITIATIVE OF THE CARING FOR OUR COUNTRY PROGRAM

Are you interested in improving your grazing management?

Burnett Catchment Care Association (BCCA)
invite all graziers to attend:

Pasture Management Workshop

Techniques to improve sustainability and profitability

This workshop will be presented by Russ Tyler
(ex DPI&F officer) of Tyler Rural Consulting

What will the workshop cover?

The workshop will be broken into two sessions; the morning session will include theory on different grazing management techniques, followed by a practical paddock session in the afternoon.

The interactive workshop will cover the following topics:

- Making the most of rainfall on your property
- Management techniques to improve land condition
- Alternative grazing systems - is it worth it?
- How animal management and selection can help you achieve your pasture management goals
- Feed budgeting – what is it all about?
- Utilising your country more effectively

Why should you do this workshop?

- Learn the techniques for healthy pasture and healthy soils, which lead to increased profits
- To gain an understanding of the link between land condition, the environment, and your hip pocket
- To identify possible projects and natural resource management funding

Information will
be available on
Reef Rescue
Water Quality
Grants!
